Course or Event Overview

This page provides the key verified details recorded for this accredited course or other CPD activity.

Course Title	Responsible AI: From Principles to Practice		
Course name on badge	Responsible AI	**CPD Hours or points awarded**	1
Training or Completion date	24/11/2026	**Expiry date (if applicable)**	No expiry
Delivery Type	Webinar	**Assessed**	No

Aims

• Beginner-level session for Women in Data members and guests across roles and industries. No technical or previous Responsible AI knowledge is required. • Build a clear, practical understanding of Responsible AI and why it matters when AI is designed, bought, deployed or used. • Help attendees recognise common AI risks and ethical questions, including fairness, transparency, privacy, accountability and human oversight. • Give attendees a simple way to ask better questions and apply Responsible AI principles in their own work.

Skills

• Responsible AI
• AI Ethics
• AI Risk Management
• AI Governance
• Ethical Decision-Making
• Consequence Scanning
• Risk Identification
• Critical Thinking
• Stakeholder Engagement
• Responsible Innovation

Outcomes

As AI becomes increasingly embedded in the products, services and decisions that shape our daily lives, understanding how to use it responsibly is more important than ever. This beginner-friendly session provides an accessible introduction to Responsible AI, using practical examples and interactive scenarios to bring key concepts to life. Together, we'll explore common risks and ethical challenges, and discuss how principles such as fairness, transparency, privacy, accountability and human oversight can help organisations build and use AI responsibly. You'll leave with a better understanding of Responsible AI and some practical tools and questions you can apply in your own role, whatever your level of technical expertise.

Certificate Verification

How we secure your certification?

This certificate has been issued through the Open CPD platform and includes verification features designed to support authenticity, traceability, and trust.

- The certificate record is tamper-proof and secured using Web3 technology.
- Certificate verification is quick and easy through the Open CPD verification system, with no login required.
- The issuing provider's details are included in the certificate record and can also be checked through the Open CPD system.

Membership and Provider Commitments

Open CPD members operate under the Open CPD Charter, which sets out shared principles for responsible recognition of learning, including clarity, transparency, ethical representation, and responsible use of verification tools.

Providers using Open CPD are required to sign a declaration confirming that they are the legitimate provider of the training, that the information submitted is accurate and not misleading, and that any CPD hours or points fairly reflect the learning activity delivered.

About Open CPD

Open CPD provides the framework and technology used by training and event providers to create, issue, and verify certificates and digital badges. Open CPD does not deliver the training itself. Responsibility for the learning content, delivery, assessment, and learner outcomes remains with the issuing provider.
