Expiry date: No expiry

Course or Event Overview

This page provides the key verified details recorded for this accredited course or other CPD activity.

Course Title	**Understanding Orthopaedic Procedures (Basic)**		
Course name on badge	Orthopaedic Basics	**CPD Hours or points awarded**	6
Training or Completion date	13/06/2026	**Expiry date (if applicable)**	No expiry
Delivery Type	Online	**Assessed**	No

Aims	The aim of this course is to provide participants with a foundational understanding of common orthopaedic conditions and procedures, enabling them to become more informed about musculoskeletal health, treatment pathways, and patient care processes. It is designed to increase awareness of how orthopaedic interventions support recovery and improve quality of life, particularly for individuals working in healthcare support roles or engaging with patients undergoing orthopaedic treatment.
Skills	Participants will develop basic knowledge of the human musculoskeletal system and gain an understanding of common orthopaedic conditions such as fractures, joint disorders, and spinal issues. They will learn the principles behind common orthopaedic procedures, including bone repair, joint replacement, and immobilisation techniques, as well as post-operative care considerations. The course also enhances their ability to communicate effectively with patients and healthcare professionals regarding orthopaedic treatment and recovery processes.
Outcomes	By the end of the course, participants will be able to identify basic orthopaedic conditions and understand the purpose of common surgical and non-surgical interventions. They will be able to describe key stages of orthopaedic treatment and recovery, demonstrate improved awareness of patient needs during rehabilitation, and apply this knowledge to support better communication and care within healthcare or community settings.

Certificate Verification

How we secure your certification?

This certificate has been issued through the Open CPD platform and includes verification features designed to support authenticity, traceability, and trust.

- The certificate record is tamper-proof and secured using Web3 technology.
- Certificate verification is quick and easy through the Open CPD verification system, with no login required.
- The issuing provider's details are included in the certificate record and can also be checked through the Open CPD system.

Membership and Provider Commitments

Open CPD members operate under the Open CPD Charter, which sets out shared principles for responsible recognition of learning, including clarity, transparency, ethical representation, and responsible use of verification tools.

Providers using Open CPD are required to sign a declaration confirming that they are the legitimate provider of the training, that the information submitted is accurate and not misleading, and that any CPD hours or points fairly reflect the learning activity delivered.
