Certificate Verification

How we secure your certification?

This certificate has been issued through the Open CPD platform and includes verification features designed to support authenticity, traceability, and trust.

- The certificate record is tamper-proof and secured using Web3 technology.
- Certificate verification is quick and easy through the Open CPD verification system, with no login required.
- The issuing provider's details are included in the certificate record and can also be checked through the Open CPD system.

Membership and Provider Commitments

Open CPD members operate under the Open CPD Charter, which sets out shared principles for responsible recognition of learning, including clarity, transparency, ethical representation, and responsible use of verification tools.

Providers using Open CPD are required to sign a declaration confirming that they are the legitimate provider of the training, that the information submitted is accurate and not misleading, and that any CPD hours or points fairly reflect the learning activity delivered.
