Certification details

Event Details

Event Title	A research data one-stop shop	Event short ID:	Research Data Access
Date of Event	18/02/2026	Expiry date:	No expiry
Learning Aims	Showcase the development of a metadata-led research data portal created for the Healthy & Sustainable Places Data Service as part of the SDR UK network. Demonstrate how data portals improve discovery, transparency, and access to research data, including browsing datasets, reviewing metadata, and submitting access requests. Explain how the Five Safes Framework supports secure, transparent, and efficient data access, with a focus on enabling rapid access to Tier 0 and Tier 1 data. Share practical project planning insights and lessons learned from designing and delivering a national-scale research data platform. Highlight user-centred design approaches that ensure research portals meet the real needs of researchers and data users.		
Key skills	More on building metadata led data portals; project planning tips when developing research data platforms; design approach that focusses on the end user; using a data portal to improve FAIR access to research data and for ease of data onboarding.		
Outcomes	We will take the audience through the development of the research portal built for the Healthy & Sustainable Places Data Service as part of the Smart Data Research (SDR) UK network. Leeds is one of the 6 hubs for SDR UK and the portal enables researchers to look for datasets, check the metadata and make access requests, plus keep up to date on news, events and activity in the sector and understand the health and sustainability of places. The project used the Five Safes Framework with an emphasis on transparency around metadata sharing and quick access to Tier 0 and 1 data.		
CPD Points/Hours	1

Score

*"In a world of constant change, let your lifelong learning leave enduring footprints."
- Marta Kalas, Founder, Open CPD*

You've reached a significant milestone in your professional journey by completing this course. Remember, every course you complete builds not only your expertise but also your ability to adapt and thrive in an ever-changing world.

What's Next?

- Share Your Success: Proudly display your certificate on LinkedIn, Facebook, or other social media to showcase your commitment to professional growth.
- Continue Your Journey: Explore further courses and opportunities. Continual learning is the key to ongoing success.
- Stay Connected: Join our community of continuous learners. Participate in forums and discussions to gain insights and share your experiences.

How we secure your certification?

Your certificate is a testament to your dedication and hard work. Keep it in a safe place and refer to it as you progress in your career.

- Your certificate is tamper proof and secured by web3 technology
- Your certificate can be verified on [Verify the content of CPD certificates](#) by entering your certificate ID 1320478VN4M2
- Your training provider is proud of your achievement. Their details can also be verified 132047

About Open CPD

We are one of the key steps that powers the change in lifelong learning. Training and event providers use our platform to create self-accreditation, issue and share information rich certificates and badges. They are responsible for the content, delivery, and value of these certificates. Open CPD does not verify the content or delivery of any course or event certificate. Instead, we offer the necessary tools and verification technology to make this process quick, transparent, and cost-effective.

Record Keeping

Want to keep a record of all of your CPD achievements in one place? We've partnered with www.CPDMe.Com, offering you a secure platform for your record-keeping. Just click the [link](#) to sign up.
