Event Title	LLMs Beyond the Benchmarks	Event short ID:	LLMs Past Benchmarks
Date of Event	03/12/2025	Expiry date:	No expiry
Learning Aims	To provide participants with a practical understanding of the latest large language models (LLMs), highlighting their key strengths and limitations, and to demonstrate effective prompting techniques to maximize their performance beyond marketing claims.		
Key skills	Large Language Models selection, prompting, effective use and organizational applications		
Outcomes	Large language models (LLMs) have quickly become part of the mainstream, and they are here to stay. From OpenAI to Anthropic and others, the list of models to choose from are endless. With companies boasting their latest offerings as the "best," it can be difficult to sort marketing noise from the actual strengths and weaknesses of a given model. In this Lunch and Learn, we will go beyond the buzzwords to review the latest suite of LLMs and how to effectively prompt each of them to improve results. In this Lunch & Learn, join FTI Consulting's experts and explore concrete examples that can be applied effectively both within your organization and in your daily work.
