Event Details

Event Title	From Breaking into the Data Industry to Mitigating Climate Crisis Risk with Data	Event short ID:	Climate Crisis Risk
Date of Event	15/01/2025	Expiry date:	31/12/9999
Learning Aims	To inform attendees about how geospatial data is used within the insurance industry and empower those considering a career in data from a non-data background to take the leap into data.		
Key skills	Learn how their transferable skills can be utilised in a data career. Learn which specific data technologies are applicable to working with geospatial data.		
Outcomes	Having completed the session, you will have built an understanding of the role of climate geospatial data in the insurance industry and the applicable data tools. As well as building confidence in understanding how skills developed in a range of previous experiences can be applicable to the data field.		
CPD Points/Hours	1

Score

Congratulations on Your Achievement!

*"In a world of constant change, let your lifelong learning leave enduring footprints."
- Marta Kalas, Founder, Open CPD*

You've reached a significant milestone in your professional journey by completing this course. Remember, every course you complete builds not only your expertise but also your ability to adapt and thrive in an ever-changing world.

What's Next?

- Share Your Success: Proudly display your certificate on LinkedIn, Facebook, or other social media to showcase your commitment to professional growth.
- Continue Your Journey: Explore further courses and opportunities. Continual learning is the key to ongoing success.
- Stay Connected: Join our community of continuous learners. Participate in forums and discussions to gain insights and share your experiences.

How we secure your certification?

Your certificate is a testament to your dedication and hard work. Keep it in a safe place and refer to it as you progress in your career.

- Your certificate is tamper proof and secured by web3 technology
- Your certificate can be verified on [Verify the content of CPD certificates](#) by entering your certificate ID 132047OTHC4D
- Your training provider is proud of your achievement. Their details can also be verified 132047

About Open CPD

We are one of the key steps that powers the change in lifelong learning. Training and event providers use our platform to create self-accreditation, issue and share information rich certificates and badges. They are responsible for the content, delivery, and value of these certificates. Open CPD does not verify the content or delivery of any course or event certificate. Instead, we offer the necessary tools and verification technology to make this process quick, transparent, and cost-effective.

Record Keeping

Want to keep a record of all of your CPD achievements in one place? We've partnered with www.CPDMe.Com, offering you a secure platform for your record-keeping. Just click the [link](#) to sign up.
