Event Title	Becoming Through Belief	**Event short ID:**	Growth & Data
Date of Event	15/04/2026	**Expiry date:**	No expiry

Learning Aims

By the end of the session, participants will be able to:
• Understand how continuous learning and self-investment can open new career opportunities, even from non-traditional or self-taught beginnings.
• Identify practical entry points into data and analytics, including accessible skills, tools, and learning pathways.
• Recognise the value of pairing professional development with personal well-being, using yoga and mindfulness as examples of practices that build confidence, resilience, and focus.
• Reflect on their own growth journey and pinpoint realistic, actionable steps to progress - professionally, personally, or both.
• Feel motivated to take ownership of their development, drawing inspiration from my lived experience of upskilling, career progression, and holistic wellness

Key skills

1. Understanding Pathways into Data & Analytics
2. Foundations of Big Data & Reporting Roles
3. Practical Learning Roadmaps
4. Skill Building Through Real Examples
5. Self Belief & Confidence in Starting (or Restarting)
6. Resilience & Growth Mindset
7. Personal Empowerment & Taking Ownership
8. Integrating Well Being With Career Development
9. Storytelling for Self Advocacy

Outcomes

Through my journey - from learning data skills during the pandemic to advancing into a performance-focused analytics role, and from 12 years of yoga practice to becoming a qualified teacher - I'll demonstrate how curiosity, consistent upskilling, and self-care can shape a fulfilling and multidimensional career path. This session will offer practical insights into navigating big data and reporting roles, building confidence through continuous learning, and integrating wellness practices to enhance focus, balance, and overall well-being. My aim is to inspire you to take empowered, holistic steps in your own development - whether in data, wellness, or wherever your passions lead.
