CPD POINTS/HOURS
1

Course or Event Overview

This page provides the key verified details recorded for this accredited course or other CPD activity.

Course Title	Enterprise AI 101		
Course name on badge	Enterprise AI 101	**CPD Hours or points awarded**	1
Training or Completion date	23/11/2026	**Expiry date (if applicable)**	No expiry
Delivery Type	Webinar	**Assessed**	No

Aims

This session is aimed at empowering women in data and technology with the knowledge needed to actively participate in and shape the future of Enterprise AI and Agentic AI. It is designed for technology professionals with foundational knowledge of data and AI who want to deepen their understanding of how AI is applied within organisations and how modern AI systems are constructed and operated.The session will help attendees move beyond using AI tools as end users and develop the confidence, vocabulary, and practical understanding needed to engage in discussions about Enterprise AI.

Skills

Technical skills
- Enterprise Agentic AI concepts
- AI architecture components and orchestration
- Model, context, memory and tool-use concepts
- AI use-case identification and solution scoping
- AI delivery, governance and scaling considerations

Professional skills
- Communicating AI concepts with technical stakeholders
- Translating technical concepts for non-specialist audiences
- Participating confidently in AI delivery discussions

Outcomes

This session provides a practical introduction to Enterprise AI and Agentic AI, helping attendees understand the concepts, terminology, and building blocks behind modern AI solutions. Attendees will explore how enterprise AI differs from personal AI usage, the role of agents and orchestration, and the key components that enable AI systems to operate effectively in organisational settings. Through practical examples and real-world case studies, participants will develop a clearer understanding of how AI capabilities are combined to solve business problems and gain the confidence to engage in informed discussions about AI with technical and non-technical stakeholders.

Certificate Verification

How we secure your certification?

This certificate has been issued through the Open CPD platform and includes verification features designed to support authenticity, traceability, and trust.

- The certificate record is tamper-proof and secured using Web3 technology.
- Certificate verification is quick and easy through the Open CPD verification system, with no login required.
- The issuing provider's details are included in the certificate record and can also be checked through the Open CPD system.

Membership and Provider Commitments

Open CPD members operate under the Open CPD Charter, which sets out shared principles for responsible recognition of learning, including clarity, transparency, ethical representation, and responsible use of verification tools.

Providers using Open CPD are required to sign a declaration confirming that they are the legitimate provider of the training, that the information submitted is accurate and not misleading, and that any CPD hours or points fairly reflect the learning activity delivered.

About Open CPD

Open CPD provides the framework and technology used by training and event providers to create, issue, and verify certificates and digital badges. Open CPD does not deliver the training itself. Responsibility for the learning content, delivery, assessment, and learner outcomes remains with the issuing provider.
