Event Details

Event Title	Intelligent Automation	Event short ID:	Smart AI-RPA Engine
Date of Event	25/11/2025	Expiry date:	No expiry
Learning Aims	Understand the core components of intelligent automation, including AI, machine learning, RPA, NLP and modern case management systems. Identify suitable automation opportunities within their own organisational processes. Apply low-code/no-code tools (e.g., Microsoft Power Platform, Pega) to design and orchestrate scalable automated workflows. Recognise real-world use cases that demonstrate the value and impact of intelligent automation.		
Key skills	Hard Skills • Understanding of intelligent automation architecture. • Creating low-code apps with Power Apps. • Designing end-to-end case management solutions. • Monitoring and optimising automation performance. Soft Skills • Process analysis and optimisation thinking. • Cross-functional collaboration between business and IT. • Change management and stakeholder engagement. • Strategic thinking around digital transformation. • Problem-solving in complex operational environments.		
Outcomes	• Demystify intelligent automation and AI-driven workflows. • Empower attendees to identify automation opportunities in their own domains. • Teach how platforms like Microsoft Power Platform and Pega can be used to build scalable, low-code/no-code solutions for case management and workflow orchestration. • Showcase potential use cases from enterprise environments.		
CPD Points/Hours	1

Congratulations on Your Achievement!

*"In a world of constant change, let your lifelong learning leave enduring footprints."
- Marta Kalas, Founder, Open CPD*

You've reached a significant milestone in your professional journey by completing this course. Remember, every course you complete builds not only your expertise but also your ability to adapt and thrive in an ever-changing world.

What's Next?

- Share Your Success: Proudly display your certificate on LinkedIn, Facebook, or other social media to showcase your commitment to professional growth.
- Continue Your Journey: Explore further courses and opportunities. Continual learning is the key to ongoing success.
- Stay Connected: Join our community of continuous learners. Participate in forums and discussions to gain insights and share your experiences.

How we secure your certification?

Your certificate is a testament to your dedication and hard work. Keep it in a safe place and refer to it as you progress in your career.

- Your certificate is tamper proof and secured by web3 technology
- Your certificate can be verified on [Verify the content of CPD certificates](#) by entering your certificate ID 132047DGREM7
- Your training provider is proud of your achievement. Their details can also be verified 132047

About Open CPD

We are one of the key steps that powers the change in lifelong learning. Training and event providers use our platform to create self-accreditation, issue and share information rich certificates and badges. They are responsible for the content, delivery, and value of these certificates. Open CPD does not verify the content or delivery of any course or event certificate. Instead, we offer the necessary tools and verification technology to make this process quick, transparent, and cost-effective.

Record Keeping

Want to keep a record of all of your CPD achievements in one place? We've partnered with www.CPDMe.Com, offering you a secure platform for your record-keeping. Just click the [link](#) to sign up.
